

EDI Consulting Group's Fax-to-EDI service enables EDI exchanges between EDI-capable business partners and Fax-ready business partners. Using character recognition and preset maps, faxes are formatted into one or more EDI documents, which are delivered to your EDI mailbox.

Our reliable software and services help customers improve current or deploy new business processes through the integration of applications, external partner systems, and people. To learn more, visit us at www.fax2edi.com.

Fax-to-EDI Overview

Fax-to-EDI Process Flow

- Fax client faxes documents to our EDI service bureau
- We process the fax through our OCR engine and validate the data visually when necessary
- The original fax image is stored & OCR digital conversion of the fax is posted
- A confirmation fax or email, or both, is sent back to the fax client with the validated data
- We build an EDI document according to your specifications and business rules and send it to your preferred EDI mailbox
- Entire process takes only minutes at moderate system load
- Both fax client and EDI client can view images and data 24/7 via a secure login at: www.fax2edi.com
- Reduce personnel overhead while increasing accuracy
